**Subject:** RE: Learning Outcomes On Syllabus

Dear Rob,

Your response below is unsatisfactory because you have not furnished learning outcomes that were crafted by you, address the course you are teaching, and meet the expectations of your supervisor. You have been advised repeatedly of the attributes of acceptable learning outcomes and your chair has even provided examples. Thus, I am re-iterating my request that you provide satisfactory learning outcomes as determined by your chair by my original deadline of COB, Friday, February 12, 2016.

Noncompliance by this deadline will be deemed to be a violation of the Code of Professional Conduct and the Statement of Professional Ethics. Consequently, you would receive a sanction as detailed in Article VII, Section B of the FAM.

Cordially,  
Mike
