Subject: Point of clarification

Dear Dr. Dillon,

Before the Committee writes the letter to the President explaining the unresolved grievance and our process, I just wanted to clarify something as it may affect your decision. The Provost did not reject the compromise, rather your chair and dean indicated that it needed greater specificity. Based on there responses, we asked that you write the additional outcomes/objectives. Then the committee hoped that all the parties involved could simply workshop these in a face-to-face meeting to everyone's satisfaction and to meet the FAM requirements.

This point of clarification may not matter, but I thought it was important so that you could make your decision based on accurate information. Please let me know how you want the Committee to proceed.

Thank you.

Sincerely,

Beth Lloyd

Marvin Gonzalez

Sarah Robertson
