

Horry County Island Apple Snail Report

Legend	
HorryCountyPonds	
	Infested
	No IAS
	Not Surveyed

As of 8/01/2008 Island Apple Snail known presence and absence were as indicated on the map. Waterbodies that are not color coded have not been inspected, ponds in the "Not Surveyed" category could not be found and or accessed. "Infested" waters were treated with the exception of the Waccamaw River and the drainage that feeds its known infested area.
